Projects on What?

Students are free to choose the topics for their projects. The batch of 2017, chose to work on a wide range of areas. Particularly, areas related to healthcare, transportation and social issues.

Projects also covered agriculture, education, handicrafts, art, hospitality and rural development.

Design for Whom?

Design projects usually focus on a specific set of users.

Quite a number of students worked with children, the elderly, women, doctors and craftsmen.

Project User Types
